# YOUR BRAIN IS LIKE THE UNIVERSE

You are a remarkable person with extraordinary potential. Your brain is the most complex, mind-blowing organ in the universe. It is estimated to have over 100 billion neurons (also called nerve cells or brain cells), each connected to about twenty thousand other cells! This means that whatever thoughts you might have, positive or negative, are greater in numbers than the amount of stars in the known universe, because your brain is like the Universe.

# YOU ARE CAPABLE

You are capable of living a wonderful life full of meaning and purpose, having a positive impact on every other lives you touch.

But before you can realise your full potential for personal transformation, performance and greatness, you need to understand who you are and how you got to where you are today.

# BLUEPRINT FOR YOUR LIFE

There is NO instruction manual for life, this YouTube Channel – ‘Be’ aims to be that instruction manual by being the pillar of strength, inspiration and joy, while co-creating the blueprint of life with you.

# WHO IS BE FOR?

This YouTube Channel is for people who want a positive impactful change in their lives. 'Be' will be amazing for you if you are lost, can't wait to find your best potential, or you are going through undesirable emotional and mental issues in life.

## BE IS NOT FOR:

- People who only wants to see overnight results
- People who pursues unrealistic dreams
- People who doesn't have the self-discipline to take action
- People who doesn't believe in self-love

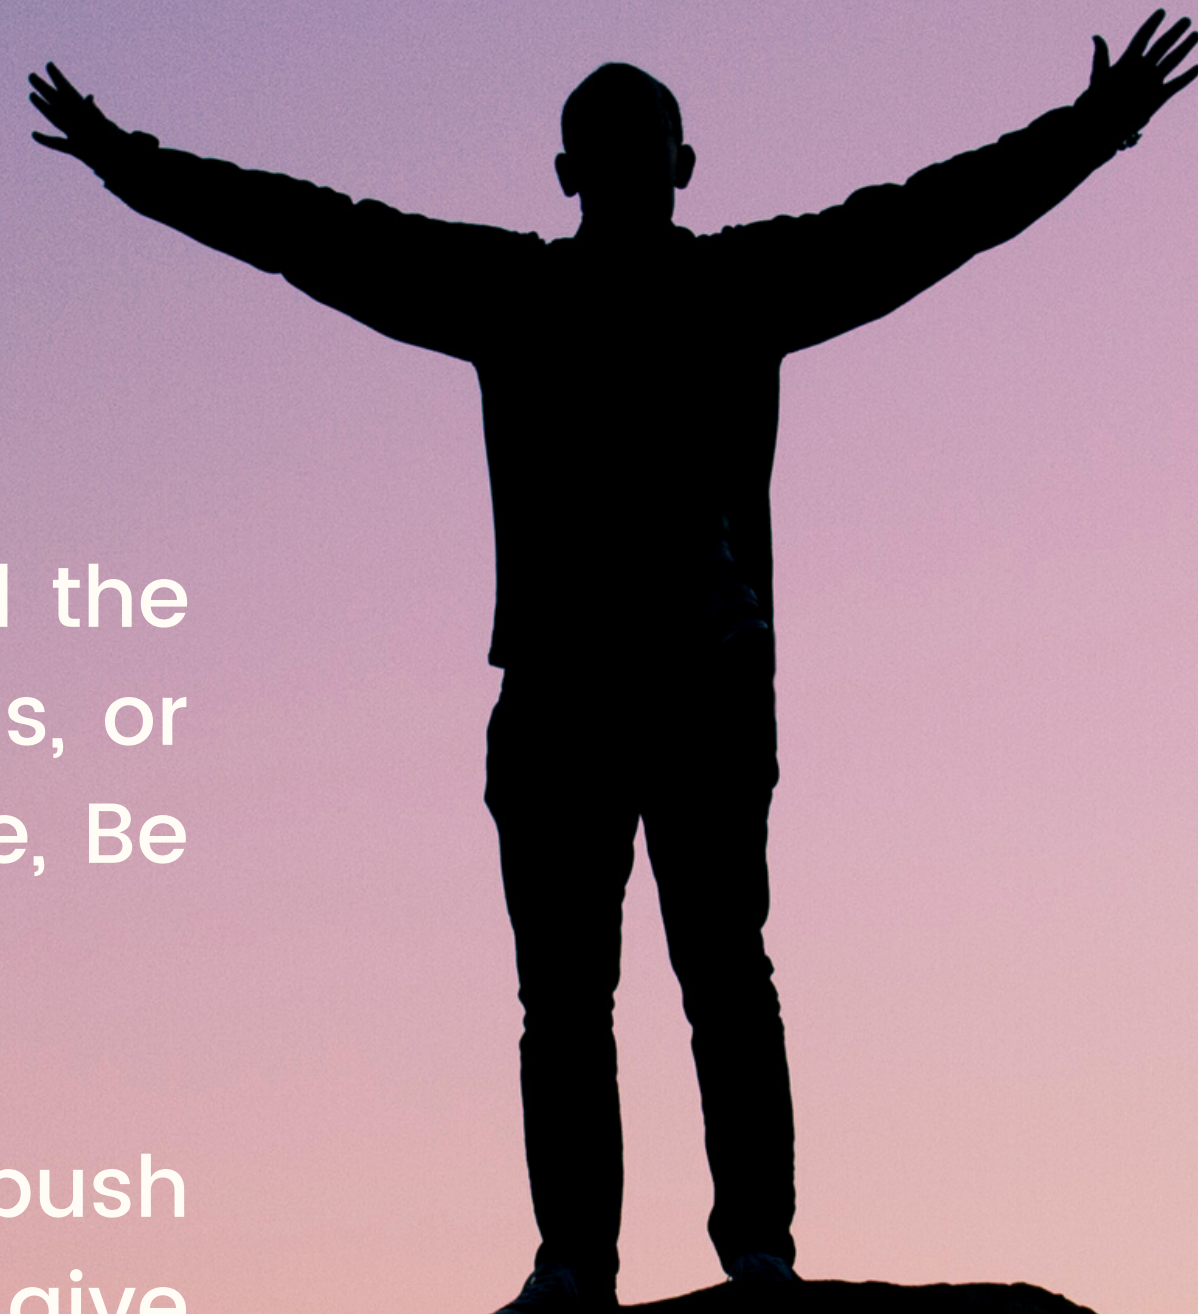

# BE

If you lack purpose in your life and need the best direction to figure out your problems, or even the basic daily struggles of your life, Be can be extremely useful to you.

It all depends on your willingness to push yourself out of your comfort zone and give your life a kick-start that you cannot find elsewhere.
